(MARK ONE)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarter ended September 30, 2021

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-40682

Software Acquisition Group Inc. III

(Exact Name of Registrant as Specified in Its Charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

86-1370703
(I.R.S. Employer
Identification No.)

1980 Festival Plaza Drive, Ste. 300
Las Vegas, Nevada 89135
(Address of principal executive offices)

310-991-4982
(Issuer's telephone number)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one share of Class A Common Stock and one-half of one Redeemable Warrant	SWAGU	The Nasdaq Stock Market LLC
Class A Common Stock, par value \$0.0001 per share	SWAG	The Nasdaq Stock Market LLC
Warrants, each exercisable for one share Class A Common Stock for \$11.50 per share	SWAGW	The Nasdaq Stock Market LLC

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, anon-accelerated filer, a smaller reporting company or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 27, 2021, there were 22,807,868 shares of Class A common stock, \$0.0001 par value, and 5,701,967 shares of Class B common stock, \$0.0001 par value, issued and outstanding

EXPLANATORY NOTE

Software Acquisition Group Inc. III (the “Company,” “we”, “our” or “us”) is filing this Amendment No. 1 to the Current Report on Form 10-Q/A (the “Amendment”) to amend its Quarterly Report on Form 10-Q for the quarter ended September 30, 2021, as originally filed with the U.S. Securities and Exchange Commission (the “SEC”) on November 1, 2021 (the “Original Filing”), to reflect changes to Note 2, Revision of Previously Issued Financial Statements. The Original Filing included the revision of the Balance Sheet as of August 2, 2021 which was audited on Form 8-K originally filed with the SEC on August 6, 2021. The audited Balance Sheet as of August 2, 2021 should not have been included in the unaudited 10-Q filing. The Company filed an amended Form 8-K to restate the audited Balance Sheet as of August 2, 2021 on February 14, 2022.

In addition, management determined that the over-allotment option granted to the underwriters is considered to be a freestanding financial instrument and meets the definition of a liability under ASC 480, “Distinguishing Liabilities from Equity” (ASC 480). The determination was based on the understanding that the over-allotment option may be exercised subsequent to the transfer of the securities from the underwriters to the investors and that the option should be detached from the initial securities before it is exercised. The over-allotment option liability is measured at fair value at inception and subsequently until it is exercised or expires, with changes in fair value presented in the statement of operations. On August 4, 2021, the underwriters partially exercised their over-allotment option to purchase an additional 2,807,868 Units at \$10.00 per Unit and forfeited the remaining over-allotment option. The over-allotment liability was eliminated upon the forfeiture of the unexercised option. (see Restated Note 9)

This Quarterly Report is also being filed to amend Part I, Item 4 “Controls and Procedures” of the Original Quarterly Report to include a revised conclusion that the disclosure controls and procedures were not effective due to the material weakness in the internal control over financial reporting related to the Company’s accounting for complex financial instruments, and Part II, Item 1A “Risk Factors” of the Original Quarterly Report in order to include a statement that the Company identified a material weakness in the internal control over financial reporting related to the Company’s accounting and reporting of complex financial instruments

Except as described above, this Amendment does not amend, update or change any other items or disclosures in the Original Filing and does not purport to reflect any information or events subsequent to the filing thereof. As such, this Amendment speaks only as of the date the Original Filing was filed, and we have not undertaken herein to amend, supplement or update any information contained in the Original Filing to give effect to any subsequent events. Accordingly, this Amendment should be read in conjunction with the Original Filing and our filings made with the SEC subsequent to the filing of the Original Filing, including any amendment to those filings.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Software Acquisition Group Inc. III (the “Company”) is a blank check company incorporated in Delaware on January 5, 2021. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (a “Business Combination”).

The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of September 30, 2021, the Company had not commenced any operations. All activity from January 5, 2021 (inception) through September 30, 2021 relates to the Company’s formation and the initial public offering (the “Initial Public Offering”), which is described below, and subsequent to the Initial Public Offering, identifying a target company for a Business Combination. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company generates non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The registration statement for the Company’s Initial Public Offering was declared effective on July 28, 2021. On August 2, 2021, the Company consummated the Initial Public Offering of 20,000,000 Units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”) at \$10.00 per Unit, generating gross proceeds of \$200,000,000 which is described in Note 4.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 9,000,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant in a private placement to Software Acquisition Holdings III, LLC (the “Sponsor”), generating gross proceeds of \$9,000,000, which is described in Note 5.

Following the closing of the Initial Public Offering on August 2, 2021 and the close of the over-allotment on August 4, 2021, an amount of \$231,499,860 (\$10.15 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”) which will be invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination or (ii) the distribution of the funds in the Trust Account to the Company’s stockholders, as described below.

On August 2, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on August 4, 2021, the Company consummated the sale of an additional 2,807,868 Units, at \$10.00 per Unit, and the sale of an additional 982,754 Private Placement Warrants, at \$1.00 per Private Warrant, generating total gross proceeds of \$29,061,434. A total of \$28,499,860 was deposited into the Trust Account, bringing the aggregate proceeds held in the Trust Account to \$231,499,860.

Transaction costs amounted to \$13,056,080, consisting of \$4,561,574 of underwriting fees, \$7,982,754 of deferred underwriting fees and \$511,752 of other offering costs.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. NASDAQ rules provide that the Business Combination must be with one or more target businesses that together have a fair market value equal to at least 80% of the balance in the Trust Account (net of amounts disbursed to management for working capital, if permitted, and excluding the amount of any deferred underwriting commissions) at the time of the signing a definitive agreement to enter a Business Combination. The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company will provide its holders of the outstanding Public Shares (the “public stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. In connection with a proposed Business Combination, the Company may seek stockholder approval of a Business Combination at a meeting called for such purpose at which stockholders may seek to redeem their shares, regardless of whether they vote for or against a Business Combination. The Company will proceed with a Business Combination only if the Company has net tangible assets of at least \$5,000,001 either immediately prior to or upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the outstanding shares voted are voted in favor of the Business Combination.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

If the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Company's Amended and Restated Certificate of Incorporation provides that, a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from seeking redemption rights with respect to 15% or more of the Public Shares without the Company's prior written consent.

The public stockholders will be entitled to redeem their shares for a pro rata portion of the amount then in the Trust Account (initially \$0.15 per share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). The per-share amount to be distributed to stockholders who redeem their shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriter (as discussed in Note 7). There will be no redemption rights upon the completion of a Business Combination with respect to the Company's warrants.

If a stockholder vote is not required and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation, offer such redemption pursuant to the tender offer rules of the Securities and Exchange Commission (the "SEC"), and file tender offer documents containing substantially the same information as would be included in a proxy statement with the SEC prior to completing a Business Combination.

The Company's Sponsor has agreed (a) to vote its Founder Shares (as defined in Note 6), the Private Shares and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination, (b) not to propose an amendment to the Company's Amended and Restated Certificate of Incorporation with respect to the Company's pre-Business Combination activities prior to the consummation of a Business Combination unless the Company provides dissenting public stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment; (c) not to redeem any shares (including the Founder Shares) and Private Placement Warrants (including underlying securities) into the right to receive cash from the Trust Account in connection with a stockholder vote to approve a Business Combination (or to sell any shares in a tender offer in connection with a Business Combination if the Company does not seek stockholder approval in connection therewith) or a vote to amend the provisions of the Amended and Restated Certificate of Incorporation relating to stockholders' rights of pre-Business Combination activity and (d) that the Founder Shares and Private Placement Warrants (including underlying securities) shall not participate in any liquidating distributions upon winding up if a Business Combination is not consummated. However, the Sponsor will be entitled to liquidating distributions from the Trust Account with respect to any Public Shares purchased during or after the Initial Public Offering if the Company fails to complete its Business Combination.

If the Company is unable to complete a Business Combination by February 2, 2023 (the "Combination Period"), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to us to pay taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the Company's board of directors, proceed to commence a voluntary liquidation and thereby a formal dissolution of the Company, subject in each case to its obligations under Delaware law to provide for claims of creditors and the requirements of applicable law. The underwriter has agreed to waive its rights to the deferred underwriting commission held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

The Sponsor has agreed that it will be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has entered into a written letter of intent, confidentiality or similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.15 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the day of liquidation of the Trust Account, if less than \$10.15 per share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriter of Proposed Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). However, the Company has not asked the Sponsor to reserve for such indemnification obligations, nor has the Company independently verified whether the Sponsor has sufficient funds to satisfy its indemnity obligations and believe that the Sponsor's only assets are securities of the Company. Therefore, the Company cannot assure its stockholders that the Sponsor would be able to satisfy those obligations. None of the Company's officers or directors will indemnify the Company for claims by third parties including, without limitation, claims by vendors and prospective target businesses. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Liquidity and Management's Plan

Prior to the completion of the Initial Public Offering, the Company lacked the liquidity it needed to sustain operations for a reasonable period of time, which is considered to be one year from the issuance date of the financial statements. The Company has since completed its Initial Public Offering at which time capital in excess of the funds deposited in the Trust Account and/or used to fund offering expenses was released to the Company for general working capital purposes. Accordingly, management has since reevaluated the Company's liquidity and financial condition and determined that sufficient capital exists to sustain operations for at least one year from the date that the financial statement was issued, and therefore substantial doubt has been alleviated.

Risks and Uncertainties

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of operations and/or search for a target business, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

In connection with the preparation of the Company's unaudited condensed financial statements as of and for the quarterly period ended September 30, 2021, Management determined that the over-allotment option granted to the underwriters is considered to be a freestanding financial instrument and meets the definition of a liability under ASC 480. The determination was based on the understanding that the over-allotment option may be exercised subsequent to the transfer of the securities from the underwriters to the investors and that the option should be detached from the initial securities before it is exercised. The over-allotment option liability is measured at fair value at inception and subsequently until it is exercised or expires, with changes in fair value presented in the statement of operations.

The impact of the revision on the Company's financial statements is reflected in the following table.

Condensed Balance Sheet as of September 30, 2021 (unaudited)	As Previously Reported	Adjustment	As Restated
OA Liability	\$ 211,034	\$ (211,034)	\$ —
Total Liabilities	\$ 8,578,412	\$ (211,034)	\$ 8,367,378

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s prospectus for its Initial Public Offering as filed with the SEC on August 9, 2021, as well as the Company’s Current Report on Form 8-K, as filed with the SEC on August 16, 2021. The interim results for the three months ended September 30, 2021 and for the period from January 5, 2021 (inception) through September 30, 2021 are not necessarily indicative of the results to be expected for the period ending December 31, 2021 or for any future periods.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of the condensed financial statements in conformity with GAAP requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in this financial statement is the determination of the fair value of the warrant liabilities. Such estimates may be subject to change as more current information becomes available and, accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents at September 30, 2021.

Marketable Securities Held in Trust Account

At September 30, 2021, substantially all of the assets held in the Trust Account were held in money market funds, which are invested primarily in U.S. Treasury securities. All of the Company’s investments held in the Trust Account are classified as trading securities. Trading securities are presented on the balance sheet at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of investments held in Trust Account are included in interest earned on marketable securities held in Trust Account in the accompanying condensed statements of operations. The estimated fair values of investments held in Trust Account are determined using available market information.

Class A Common Stock Subject to Possible Redemption

The Company accounts for its Class A common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Shares of Class A common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. The Company’s Class A common stock features certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, at September 30, 2021, Class A common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders’ equity section of the Company’s balance sheets.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid in capital and accumulated deficit.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

At September 30, 2021, the Class A common stock reflected in the balance sheets are reconciled in the following table:

Gross proceeds	\$ 228,078,680
Less:	
Proceeds allocated to Public Warrants	(12,492,109)
Class A common stock issuance costs	(12,318,960)
Add:	
Adjustment of carrying value to initial redemption value	28,232,249
Class A common stock subject to possible redemption	<u>\$ 231,499,860</u>

Derivative Liabilities (As Restated, See Note 2)

The Company accounts for derivative instruments as either equity-classified or liability-classified instruments based on an assessment of the instruments' specific terms and applicable authoritative guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, Distinguishing Liabilities from Equity ("ASC 480") and ASC 815, Derivatives and Hedging ("ASC 815"). The assessment considers whether the instruments are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the derivative instruments meet all of the requirements for equity classification under ASC 815, including whether they are indexed to the Company's own common stock, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of issuance and as of each subsequent quarterly period end date while the instruments are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the statements of operations. The Company's has analyzed the Public Warrants and Private Placement Warrants and determined they are considered to be freestanding instruments and do not exhibit any of the characteristics in ASC 480 and therefore are not classified as liabilities under ASC 480. (see Note 9)

The Company granted the underwriters a 45-day option at the Initial Public Offering date to purchase up to 3,300,000 additional Units to cover over-allotments. The over-allotment option was evaluated under ASC 480 "Distinguishing Liabilities from Equity." The Company concluded that the underlying transaction (Units which include redeemable shares and warrants) of the over-allotment option embodies an obligation to repurchase the issuer's equity shares. Accordingly, the option was fair valued and recorded as a liability at issuance date and applied to the offering cost of the Class A redeemable shares. On August 4, 2021, the underwriters partially exercised their over-allotment option to purchase an additional 2,807,868 Units at \$10.00 per Unit and forfeited the remaining over-allotment option. (see Note 10)

Offering Costs

Deferred offering costs consist of underwriting, legal, accounting and other expenses incurred through the balance sheet date that are directly related to the Initial Public Offering. Offering costs are allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs allocated to the Public Shares were charged to stockholders' deficit upon the completion of the Initial Public Offering. Offering costs amounted to \$13,056,080, which were charged to stockholders' deficit upon the completion of the Initial Public Offering. \$12,318,960 were allocated to public shares and charged to temporary equity, and \$737,120 was allocated to warrants and accounted for as equity.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement's carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. Deferred tax assets were deemed to be de minimis as of September 30, 2021.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of September 30, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Net Loss per Common Share

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share”. Net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding for the period. Accretion associated with the redeemable shares of Class A common shares is excluded from earnings per share as the redemption value approximates fair value.

The following table reflects the calculation of basic and diluted net income (loss) per ordinary share (in dollars, except per share amounts):

	Three Months Ended September 30, 2021		For the Period from January 5, 2021 (Inception) Through September 30, 2020	
	Class A	Class B	Class A	Class B
Basic and diluted net loss per common share				
Numerator:				
Allocation of net loss, as adjusted	\$ (503,124)	\$ (187,730)	\$ (351,839)	\$ (340,014)
Denominator:				
Basic and diluted weighted average shares outstanding	<u>14,565,744</u>	<u>5,434,914</u>	<u>5,338,839</u>	<u>5,159,411</u>
Basic and diluted net loss per ordinary share	\$ (0.03)	\$ (0.03)	\$ (0.07)	\$ (0.07)

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times may exceed the Federal Depository Insurance Corporation coverage limit of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such account.

Fair Value of Financial Instruments

The fair value of the Company’s assets and liabilities, which qualify as financial instruments under ASC Topic 820, “Fair Value Measurement,” approximates the carrying amounts represented in the accompanying condensed balance sheet, primarily due to their short-term nature.

Recent Accounting Standards

In August 2020, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”)2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s condensed financial statements.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

NOTE 4. INITIAL PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 20,000,000 Units at a purchase price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock and one-half of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one share of Class A common stock at an exercise price of \$11.50, subject to adjustment (see Note 8).

On August 2, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on August 4, 2021, the Company consummated the sale of an additional 2,807,868 Units, at \$10.00 per Unit, and the sale of an additional 982,754 Private Placement Warrants, at \$1.00 per Private Warrant.

NOTE 5. PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 9,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$9,000,000, in a private placement. Each Private Placement Warrant is exercisable to purchase one Class A common stock at a price of \$11.50. A portion of the proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

On August 2, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on August 4, 2021, the Company consummated the sale of an additional 2,807,868 Units, at \$10.00 per Unit, and the sale of an additional 982,754 Private Placement Warrants, at \$1.00 per Private Warrant.

NOTE 6. RELATED PARTY TRANSACTIONS

Founder Shares

On January 22, 2021, the Sponsor purchased 5,750,000 shares (the "Founder Shares") of the Company's Class B common stock for an aggregate price of \$25,000. The Founder Shares include an aggregate of up to 750,000 shares subject to forfeiture by the Sponsor to the extent that the underwriters' over-allotment is not exercised in full or in part, so that the Sponsor will collectively own, on an as-converted basis, 20% of the Company's issued and outstanding shares after the Initial Public Offering (assuming the Sponsor does not purchase any Public Shares in the Initial Public Offering). On August 2, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on August 4, 2021, the Company consummated the sale of an additional 2,807,868 Units. As a result of the underwriters' election to partially exercise their over-allotment option and the forfeiture of the remaining over-allotment option, 48,033 Founder Shares were forfeited, and 701,967 Founder Shares are no longer subject to forfeiture resulting in an aggregate of 5,701,967 Founder Shares outstanding at August 4, 2021.

The Sponsor has agreed not to transfer, assign or sell any of its Founder Shares until the earlier to occur of: (A) one year after the completion of a Business Combination or (B) the date on which the Company completes a liquidation, merger, capital stock exchange or similar transaction that results in the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property. Notwithstanding the foregoing, if the last sale price of the Company's Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Business Combination, the Founder Shares will be released from the lock-up.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

Other Receivable – Related Party

On August 23, 2021, the Company paid a charge in the amount of \$5,541 on behalf of an affiliated entity. This amount is included in other receivable – related party. The Company was subsequently reimbursed in full subsequent to September 30, 2021, prior to the issuance of these financial statements.

Administrative Support Agreement

The Company agreed, commencing on July 28, 2021, through the earlier of the Company’s consummation of a Business Combination and its liquidation, to pay an affiliate of the Sponsor or its designee a total of up to \$15,000 per month for office space, administrative and shared personnel support. For the three months ended September 30, 2021 and for the period from January 5, 2021 (inception) through September 30, 2021, the Company incurred \$15,000 in fees for these services, of which such amount is included in accrued expenses in the accompanying balance sheet.

Promissory Note — Related Party

On January 22, 2021, the Sponsor issued an unsecured promissory note to the Company (the “Promissory Note”), pursuant to which the Company could borrow up to an aggregate principal amount of \$300,000. The Promissory Note was non-interest bearing and, as amended effective May 28, 2021, payable on the earlier of (i) September 30, 2021 and (ii) the consummation of the Initial Public Offering. The outstanding balance under the Promissory Note of \$174,060 was repaid at the closing of the Initial Public Offering on August 2, 2021.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company’s directors and officers may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. As of September 30, 2021, there were no amounts outstanding under the Working Capital Loans.

NOTE 7. COMMITMENTS AND CONTINGENCIES

Registration Rights

Pursuant to a registration rights agreement entered into on July 28, 2021, the holders of the Founder Shares, Private Placement Units (including securities contained therein) and units (including securities contained therein) that may be issued upon conversion of Working Capital Loans, and any shares of Class A common stock issuable upon the exercise of the Private Placement Warrants and any shares of Class A common stock and warrants (and underlying Class A common stock) are entitled to registration rights, requiring the Company to register such securities for resale (in the case of the Founder Shares, only after conversion to Class A common stock). The holders of the majority of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. However, the registration rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period. The registration rights agreement does not contain liquidated damages or other cash settlement provisions resulting from delays in registering the Company’s securities. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company granted the underwriters a 45-day option from the date of the Initial Public Offering to purchase up to 3,000,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. On August 2, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on August 4, 2021, the Company consummated the sale of an additional 2,807,868 Units.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

The underwriters were paid a cash fee of \$0.20 per Unit, or \$4,561,574 in the aggregate. In addition, the underwriters are entitled to a deferred fee of \$7,982,754 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

NOTE 8. CLASS A COMMON STOCK SUBJECT TO POSSIBLE REDEMPTION

Class A Common Stock — The Company is authorized to issue 100,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. At September 30, 2021, there were 22,807,868 shares of Class A common stock issued and outstanding, all of which are subject to possible redemption and presented as temporary equity in the accompanying balance sheet.

Holders of Class A common stock and holders of Class B common stock will vote together as a single class on all other matters submitted to a vote of our stockholders except as otherwise required by law.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of a Business Combination on a one-for-one basis, subject to adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts issued in the Initial Public Offering and related to the closing of a Business Combination, the ratio at which the shares of Class B common stock will convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the issued and outstanding shares of our Class B common stock agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of all shares of common stock issued and outstanding upon the completion of the Initial Public Offering, plus all shares of our Class A common stock and equity-linked securities issued or deemed issued in connection with a Business Combination, excluding any shares or equity-linked securities issued, or to be issued, to any seller in our a Business Combination.

NOTE 9. SHAREHOLDERS' DEFICIT

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At September 30, 2021, there were no shares of preferred stock issued or outstanding.

Class B Common Stock — The Company is authorized to issue 10,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. At September 30, 2021, there were 5,750,000 shares of Class B common stock issued and outstanding, of which an aggregate of up to 750,000 shares of Class B common stock are subject to forfeiture to the extent that the underwriters' over-allotment option is not exercised in full or in part, so that the number of shares of Class B common stock will equal 20% of the Company's issued and outstanding common stock after the Initial Public Offering. As a result of the underwriters' election to partially exercise their over-allotment option and the forfeiture of the remaining over-allotment option, 48,033 Founder Shares were forfeited, and 701,967 Founder Shares are no longer subject to forfeiture resulting in an aggregate of 5,701,967 Founder Shares outstanding at August 4, 2021.

Prior to the consummation of a Business Combination, only holders of Class B common stock will have the right to vote on the election of directors.

Warrants — Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable 30 days after the consummation of a Business Combination. The Public Warrants will expire five years from the consummation of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A common stock pursuant to the exercise of a Public Warrant and will have no obligation to settle such Public Warrant exercise unless a registration statement under the Securities Act covering the issuance of the Class A common stock issuable upon exercise of the Public Warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration. No Public Warrant will be exercisable for cash or on a cashless basis, and the Company will not be obligated to issue any shares to holders seeking to exercise their Public Warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

The Company has agreed that as soon as practicable, but in no event later than 15 business days, after the closing of a Business Combination, it will use its best efforts to file with the SEC a registration statement registering the issuance of the shares of Class A common stock issuable upon exercise of the warrants, to cause such registration statement to become effective and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of a Business Combination or within a specified period following the consummation of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” pursuant to the exemption provided by Section 3(a)(9) of the Securities Act; provided that such exemption is available. If that exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis.

Redemption of Warrants When the Price per share of Class A common stock Equals or Exceeds \$18.00— Once the warrants become exercisable, the Company may redeem the outstanding Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per Public Warrant;
- upon not less than 30 days’ prior written notice of redemption to each warrant holder; and
- if, and only if, the reported closing price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending three business days before the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may not exercise its redemption right if the issuance of shares of common stock upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or the Company is unable to effect such registration or qualification.

The exercise price and number of shares of Class A common stock issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the Public Warrants will not be adjusted for issuances of Class A common stock at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company’s assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

In addition if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company’s board of directors and, in the case of any such issuance to the sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates a Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price described above will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Proposed Public Offering, except that the Private Placement Warrants and the common shares issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and will be non-redeemable.

SOFTWARE ACQUISITION GROUP INC. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
SEPTEMBER 30, 2021
(Unaudited)

NOTE 10. FAIR VALUE MEASUREMENTS (as Restated, See Note 2)

The Company follows the guidance in ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

The following table presents information about the Company's assets that are measured at fair value on a recurring basis at September 30, 2021, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

	Description	Level	September 30, 2021
Assets:			
	Marketable securities held in Trust Account	1	\$231,501,771

The over-allotment option was accounted for a liability in accordance with ASC-480 and is presented within liabilities on the accompanying balance sheet. The over-allotment option is measured at fair value at inception and on a recurring basis until it is exercised or expires, with changes in fair value presented in the statement of operations. On August 4, 2021, the underwriters partially exercised their over-allotment option to purchase an additional 2,807,868 Units at \$10.00 per Unit and forfeited the remaining over-allotment option. The over-allotment liability was eliminated upon the forfeiture of the unexercised option.

The over-allotment option liability was valued using a Modified Black Scholes Model.

The following table presents the quantitative information regarding Level 3 fair value measurement inputs:

	August 4, 2021	August 2, 2021
Stock Price	\$ 10.04	\$ 10.00
Exercise Price	\$ 10.00	\$ 10.00
Volatility	5.00%	5.00%
Term (days)	43	45
Dividend Yield	0.00	0.00
Risk Free Rate-Daily Treasury Yield Curve	0.05%	0.05%

The following table presents the changes in the fair value of the Level 3 over-allotment liability:

	Over-allotment Option Liability
Fair value as of January 5, 2021	\$ —
Initial measurement on August 2, 2021	211,034
Change in fair value at August 4, 2021	61,353
Fair value of forfeited over-allotment option at August 4, 2021	(17,445)
Elimination of over-allotment liability at August 4, 2021	(254,942)
Fair value as of September 30, 2021	<u>\$ —</u>

NOTE 11. SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the condensed financial statements were issued. Based upon this review, other than described in these financial statements, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

References in this report (this "Quarterly Report") to "we," "us" or the "Company" refer to Software Acquisition Group Inc. III. References to our "management" or our "management team" refer to our officers and directors, and references to the "Sponsor" refer to Software Acquisition Holdings III, LLC. The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

This Quarterly Report includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report including, without limitation, statements in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as "expect," "believe," "anticipate," "intend," "estimate," "seek" and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management's current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements, including that the conditions of the Proposed Business Combination are not satisfied. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company's final prospectus for its Initial Public Offering filed with the U.S. Securities and Exchange Commission (the "SEC"). The Company's securities filings can be accessed on the EDGAR section of the SEC's website at www.sec.gov. Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a blank check company incorporated in Delaware on January 5, 2021, formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, share purchase, reorganization or other similar Business Combination with one or more businesses. We intend to effectuate our Business Combination using cash derived from the proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, our shares, debt or a combination of cash, shares and debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities from January 5, 2021 (inception) through September 30, 2021 were organizational activities, those necessary to prepare for the Initial Public Offering, described below, and subsequent to the Initial Public Offering, identifying a target company for a Business Combination. We do not expect to generate any operating revenues until after the completion of our Business Combination, at the earliest. We will generate non-operating income in the form of interest income on marketable securities held in the Trust Account. We will incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended September 30, 2021, we had a net loss of \$690,854, which consisted of formation and operating costs of \$648,866, offset by interest income in bank of \$9, change in fair value loss of over-allotment option liability of \$61,353, fair value of forfeited over-allotment option \$17,445, and interest earned on marketable securities held in Trust Account of \$1,911.

For the period from January 5, 2021 (inception) through September 30, 2021, we had a net loss \$691,853, which consisted of formation and operating costs of \$649,865, offset by interest income in bank of \$9, change in fair value loss of over-allotment option liability of \$61,353, fair value of forfeited over-allotment option \$17,445, and interest earned on marketable securities held in Trust Account of \$1,911.

Liquidity and Capital Resources

On August 2, 2021, we consummated the Initial Public Offering of 20,000,000 Units, generating gross proceeds of \$200,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of 9,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Unit in a private placement to our Sponsor, generating gross proceeds of \$9,000,000. On August 2, 2021, the underwriters notified the Company of their intention to partially exercise their over-allotment option. As such, on August 4, 2021, the Company consummated the sale of an additional 2,807,868 Units, at \$10.00 per Unit, and the sale of an additional 982,754 Private Placement Warrants, at \$1.00 per Private Placement Warrant, generating total gross proceeds of \$29,061,434.

Following the Initial Public Offering, the sale of the Private Placement Units, and the exercise of the over-allotment option by the underwriters, a total of \$231,499,860 (\$10.15 per Unit) was placed in the Trust Account. We incurred \$13,056,080 in Initial Public Offering related costs, including \$4,561,574 of underwriting fees, \$7,982,754 of deferred underwriting fees and \$511,752 of other costs.

Table of Contents

For the period from January 5, 2021 (inception) through September 30, 2021, cash used in operating activities was \$808,986. Net loss of \$691,853 was affected by the change in fair value loss of the over-allotment of \$61,353, fair value of forfeited over-allotment option \$17,445, and the interest earned on marketable securities held in Trust Account of \$1,911. Changes in operating assets and liabilities used \$159,130 of cash for operating activities.

We intend to use the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less taxes payable), to complete our Business Combination. To the extent that our share capital or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor, or certain of our officers and directors or their affiliates may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we would repay such loaned amounts. In the event that a Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants upon consummation of the Business Combination at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our Public Shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination.

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of September 30, 2021. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than an agreement to pay an affiliate of the Sponsor a monthly fee of \$15,000 for office space, utilities and secretarial and administrative support. We began incurring these fees on the date the Public Shares were first listed on NASDAQ and will continue to incur these fees monthly until the earlier of the completion of the Business Combination and our liquidation.

The underwriters are entitled to a deferred fee of \$0.35 per share, or \$7,982,754 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

Critical Accounting Policies

The preparation of condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. At September 30, 2021, we have not identified any critical accounting policies.

Class A Common Stock Subject to Possible Redemption

We account for our common stock subject to possible conversion in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Common stock subject to mandatory redemption is classified as a liability instrument and measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. Our common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders’ equity section of our condensed balance sheets.

[Table of Contents](#)

Net Income (Loss) Per Common Share

Net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Accretion associated with the redeemable shares of Class A common stock is excluded from earnings per share as the redemption value approximates fair value.

Recent Accounting Standards

In August 2020, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. We are currently assessing the impact, if any, that ASU 2020-06 would have on our financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not required for smaller reporting companies.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended September 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial and accounting officer have concluded that during the period covered by this report, our disclosure controls and procedures were not effective due to the material weakness in our internal controls over financial reporting related to the Company’s accounting for complex financial instruments. As a result, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this form 10-Q present fairly, in all material respects, our financial position, results of operations and cash flows for the period presented.

Changes in Internal Control over Financial Reporting

During the fiscal quarter ended September 30, 2021, other than noted below, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. Management has identified a material weakness in internal controls related to the accounting for complex financial instruments. While we have processes to identify and appropriately apply applicable accounting requirements, we plan to enhance our system of evaluating and implementing the accounting standards that apply to our financial statements, including through enhanced analyses by our personnel and third-party professionals with whom we consult regarding complex accounting applications. The elements of our remediation plan can only be accomplished over time, and we can offer no assurance that these initiatives will ultimately have the intended effects.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 1A. Risk Factors

Factors that could cause our actual results to differ materially from those in this report include the risk factors described in our final prospectus for our Initial Public Offering filed with the SEC. As of the date of this Report, there have been no material changes to the risk factors disclosed in our final prospectus for the Initial Public Offering filed with the SEC. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations.

We have identified a material weakness in our internal control over financial reporting as of September 30, 2021. If we are unable to develop and maintain an effective system of internal control over financial reporting, we may not be able to accurately report our financial results in a timely manner, which may adversely affect investor confidence in us and materially and adversely affect our business and operating results.

In connection with the Company's initial public offering, we accounted for a portion of the proceeds received from the offering as stockholders' deficit. Following the SEC's guidance on this issue, management has identified errors made in its historical financial statements and performed a quantitative assessment under SAB 99, concluding a restatement is required of the Company's financial statements to classify such amount as Class A common stock subject to possible redemption and a material weakness in our internal controls over financial reporting.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected and corrected on a timely basis.

Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. We continue to evaluate steps to remediate the material weakness. These remediation measures may be time consuming and costly and there is no assurance that these initiatives will ultimately have the intended effects.

If we identify any new material weaknesses in the future, any such newly identified material weakness could limit our ability to prevent or detect a misstatement of our accounts or disclosures that could result in a material misstatement of our annual or interim financial statements. In such case, we may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, investors may lose confidence in our financial reporting and our stock price may decline as a result. We cannot assure that the measures we have taken to date, or any measures we may take in the future, will be sufficient to avoid potential future material weaknesses.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On August 2, 2021, we consummated the Initial Public Offering of 20,000,000 Units. The Units were sold at an offering price of \$10.00 per unit, generating total gross proceeds of \$200,000,000. Jefferies LLC served as the manager for the Initial Public Offering. The securities in the offering were registered under the Securities Act on registration statement on Form S-1 (No.333-253230). The Securities and Exchange Commission declared the registration statements effective on July 30, 2021.

Simultaneous with the consummation of the Initial Public Offering, the Sponsor purchased an aggregate of 9,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, generating total proceeds of \$9,000,000. The issuance was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

Of the gross proceeds received from the Initial Public Offering, an aggregate of \$203,000,000 (\$10.15 per Unit) was placed in the Trust Account.

On August 4, 2021, the underwriters partially exercised their over-allotment option, resulting in an additional 2,807,868 Units issued for an aggregate amount of \$28,078,680. In connection with the underwriters' partial exercise of their over-allotment option, the Company also consummated the sale of an additional 982,754 Private Placement Warrants at \$1.00 per Private Placement Warrant, generating total proceeds of \$982,754. A total of \$28,499,860 was deposited into the Trust Account, bringing the aggregate proceeds held in the Trust Account to \$231,499,860.

For a description of the use of the proceeds generated in our Initial Public Offering, see Part I, Item 2 of this Form 10-Q.

Title: Chief Executive Officer and Chief Financial Officer
(Principal Executive and Financial Officer)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Jonathan S. Huberman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Software Acquisition Group Inc. III;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared; and
 - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
